SUMMARY

Experienced web developer proficient in React JS, TypeScript, Redux Toolkit, Tailwind CSS and Sass. Skilled in backend development with Node.js and Express.js, coupled with MongoDB for database management. Proven track record of delivering dynamic, responsive web applications. Ready to tackle new challenges and contribute effectively to innovative projects.

PROJECTS

Verma Creations

Freelance • <https://verma-creations.onrender.com/> • March 2024 - May 2024

- Leveraged TypeScript and ReactJS to develop a responsive frontend website, employing modern UI/UX principles for an intuitive user experience.
- Utilized React hooks for efficient state management, enhancing code readability and maintainability while ensuring seamless interaction within the application.
- Integrated the Lightgallery JavaScript library seamlessly into the website, elevating the visual appeal with stunning gallery sections, demonstrating proficiency in frontend technologies and third-party integration.
- Enhanced webpage SEO and load speed by 35-40% using Google PageSpeed Insights, significantly improving responsiveness and user experience.

Shopper-Square

<https://shopper-square-2968b.web.app> • September 2023 - September 2023

- As a React JS developer, I designed and developed a dynamic e-commerce website using React JS and Redux.
- Used redux toolkit for state management, implemented responsive UI/UX, optimized performance, and ensured seamless user interactions. I leveraged my expertise in React, JavaScript, and front-end technologies to deliver an engaging and user friendly online platform.
- Used the Bootstrap framework to integrate responsive design and pre-made UI components to improve the user experience.
- Enhanced webpage responsiveness by 20-30% using Google PageSpeed Insights and Pingdom for SEO and speed optimization.

Harmony_of_Words - A MERN Stack Social Platform

neoG Camp • <https://harmony-of-words-ca3m.onrender.com> • July 2023 - August 2023

- Harmony_of_Words, a dynamic and feature-rich social platform meticulously crafted using the MERN (MongoDB, Express, React, and Node.js) stack.
- This project showcases my proficiency as a full-stack developer, highlighting my expertise in creating seamless and interactive web applications. With a focus on user engagement and streamlined functionality, Harmony of Words empowers users to create, share, and interact with posts while fostering a sense of online community.
- Designed and implemented Redux actions and reducers to manage the application's state.

EDUCATION

Bachelor of Technology in Computer Science

Patel College Of Science And Technology • Bhopal • 2023 • 8.21 CGPA

CERTIFICATIONS

NodeJS - The Complete Guide (MVC, REST APIs)

Udemy • 2023

- Certified in utilizing Node.js, Express.js, and MongoDB to create efficient and scalable backend projects.

SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React JS, Redux toolkit, Tailwind CSS, SASS.

Backend: Node JS, Express JS

Database: MongoDB
